

Classy Glass!

2018

Meet the Artist... Sue Crowley!

I have been creating Italian glass “lampwork” jewellery for the past 10 years. I have a studio in my home in Invermere, and I am passionate about this amazing and challenging art form! I have taken several formal courses in glasswork, including training in Murano, Italy, where this creative and beautiful art originated.

Classy Glass Jewellery

Each piece is a handmade, one-of-a-kind creation by Sue! Key steps involved:

- Melt Moretti glass rods over a hot torch, directing the molten glass to a mandrel;
- Shape the glass using gravity, turning the rod and adding colours, design and shape;
- Allow designed pieces to cool in a kiln, which “anneals” them for lasting durability.
