info@slateworks.ca

Marie and Pat bring their slate creations to life out of their studios located in Calgary, AB and Fairmont BC. Working with slate as a medium allows them to express their passion for nature, detail and architecture. Slate Works is entering its 21st year of business.

CREATIVE PROCESS

Using a variety of stone & tile saws, sanding tools (and lots of miscellaneous tools!), waterproofing & finishing techniques, Marie creates high quality stone home & garden décor accessories with slate from Canada, USA, Spain, India, China, & Brazil. In the studio, the slate is cut into the various shapes and sizes of a vase, a fountain, etc, and carefully glued, sanded, & finished. Most works of art take a period of 2-5 days to complete.
